

## **Bibliography Project**

Readers will be aware that we have been putting together a Bibliography Project over the last year. The idea is to provide an overview of the field plus selected key book references to enable people to follow up a topic and/or to provide them with evidence for phenomena regarded with some scepticism by mainstream science. All articles below are available on the private side of the web page but can be ordered in hard copy from the office. We will be adding further articles during the autumn and will provide a complete list when the project is finished by the end of the year.

To see the Bibliography on line, enter the Members' Circle and click the link in the pink rectangle.

[UPDATE: The Bibliography Project are [now available online](#) - *Webmaster*]
