

## Members' Articles

*The following articles are available at 15p per sheet + 30p postage per 5 sheets. Small orders from the UK are best paid in stamps; overseas Members can add the appropriate amounts to their subscriptions.*

*PLEASE CONTINUE TO SEND ABSTRACTS AND ARTICLES FOR THIS NETWORKING SCHEME.*

## Science

*A Science of Qualities* - by Prof. Brian C. Goodwin (33 pp.). An enquiry into the problem of biological form, variety of form being one of the distinctive qualities of the living realm.

*What Use are Brain Waves?* - by Roger Coghill (8 pp.). On the interactions of electromagnetic fields and radiation with living things. Presented at the AGM.

*Science, Consciousness and God* - by Peter Russell (11pp.). Only a truly unified science would include the deep mind.

*The Law of Waves and the Invalidation of the Scientific Method* - by Dr. Irving Dardik (13pp.). An interesting attempt to evolve a unifying theory of everything.

*Gamma-ray Bursts: Fossil Radiation from the Birth of the Universe* - by Aurele Prins (9pp.). Linking gamma-ray bursts to the big bang.

*Synchronicity and Emergent Non-local Information in Quantum Systems* - by Ezio M. Insinna (16pp.). A possible relationship between psychology and physics.

*Synchronicity and Coherent Excitations in Microtubules* - Ezio M. Insinna (18 pp., from *Nanobiology* 1992 1, 191-208). Are dissipative structures the ideal substrate for synchronistic events?

*Non-local Quantum Information Processing in the Cytoskeleton* - by Ezio M. Insinna (16pp.). Microtubules as possible sites of mind-brain quantum interactions.

## Medicine/Health

*Is Evidence for Homoeopathy Reproducible?* - David Reilly and others (6pp., from *The Lancet* Vol 344, No. 8937, p. 1601). An important article on a controversial subject.

*Is Spiritual Healing a Valid and Effective Therapy?* - by R.D. Hodges and A.M. Scofield (5 pp., from the *Journal of the Royal Society of Medicine* Vol. 88 April, 1995, p.203). An examination of the evidence in favour of healing, and what might need to be done for it to gain acceptance as a scientifically valid therapy.

*The Soul of the Matter: Energised Information and Field Resonance* - by Jens Jerndal (13 pp.). A study of the electro-magnetic dimensions of man. Presented at the AGM.

*AIDS in a Nutshell* - Prof. Jens Jerndal (3 pp.). Some new light on AIDS.

*Rebirthing - Marvellous or Terrible* - by Joy Manne (8 pp., from *The Therapist*, Spring 1995). Some useful information on rebirthing.

*Rebirthing: An Orphan Therapy?* - by Joy Manne (11 pp., from a forthcoming issue of *Int J of Prenatal and Perinatal Psychology and Medicine*). Further information on this subject.

## **Philosophy/Religion**

*Nature, Cognition and System II* - by Marc E. Carvallo (53 pp.). Volume Two of a collection of reports on current research in systems theory and cybernetics as applied to natural and cognitive systems.

*Experiences of Hyperaesthesia and Analgesia* - by Tom Fry (9 pp.). Suggests extra-sensory perception might be present in some cases.

*Risks of misunderstanding: History, Myth, Allegory, Symbol and Reality* - by Peter Talbot Willcox (10 pp.). An essay on whether it is possible to communicate meaning exactly.

## **Psychology**

*On Relationship and Identity* - by Dr. T.P. O'Brien (18 pp.). The only serious unsolved problem in biology, that of control.

*Whole-Self Psychology and Therapy (homoeopathically seen)* - by Troye Turner-Groot and Dr. Ruth Medvedovsky (3 pp.). A short essay on subjective reality and objective truth.

*Buddhist Psychology: A Paradigm for the Psychology of Enlightenment* - by Joy Manne (5 pp., from *Beyond Therapy* ed Guy Claxton). Follows Popper's approach.

*New Shamanism* - by Roy Willis (3 pp.). Discusses the popularity of "neo-shamanism", with case histories.

## **General**

*Science: Power or Wisdom?* - by Kevin McCarthy (4 pp., from *SSR, March 1995, Vol 76 No 276*). The need to restore meaning, purpose, beauty, and mystery to science.

*From Politics to Planetics* - by Claudine Brelet (3 pp.). About developing the intellectual skills to address the climate change issue on a truly global scale.

*The Wolf is Here: The Impact of Telepower* - by Howard F. Didsbury, Jr (2 pp.). Cautionary notes on the age of telecomputing.

*Free Enterprise in Open Society* - by Dr. Rudolf W. Knoepfel (6 pp.). Discusses the need to improve the free-enterprise economy.

*World-Grids in Mexico* - by Enrique Ortiz Davila (14 pp.). Suggests that world-grids convey multi-dimensional bio-astro-geophysical information.
